Vassel, 10.

Loco eodem. Vide supra, n°s 2983 et 2988. Cippus est de lapide calcario fusco, qualis in lapicidinis Tuneti proximis nullus reperitur, o^{m},23 altus, o^{m},16 supra, o^{m},125 infra latus, fastigio et acroteriis terminatus. In fastigio, ; supra titulum, ; infra, linea et . Damus ex ectypo.

Titulum neopunicis litteris negligentius scriptum et ligatis inter se litteris insignem Vassel optime legit et transcribit :

לארבת לתנת פנ[ע] על ולעדן

לבעל ח[מ]ן אש נד[רי גר]ש

Versu 1°, לארבת = להרבת (cf. *C. I. S.*, 149) monstrum grammaticum, certum tamen. — Ibidem, פנע על = פנע[ב]על; cf. פן על, *C. I. S.*, 931 et 1513. Miraberis tamen ע illud parvulum, et interdum quæsieris utrum non litteras ב et ע scriba in unam fuderit. Libycum ב illud esse cum Vassele vix credimus.

Versu 2°, לבעל legendum esse, non (עדנ)ן בעל, putamus; vocabulum enim עדנן scriba, spatio in fine versus sufficiente, non medium dividisset. Confer similes ligaturas apud Ph. Berger, *Inscriptions peintes de la Nécropole d'Hadrumète*, in *Revue archéol.*, 1889, t. XIV, p. 21 et 201. — Ibidem, חמן, מ male formato; חבן non probamus, quandoquidem ב hujus formæ in titulis neopunicis nunquam occurrit. — Ibidem, אש נדר bene legit Vassel, litteris verbi נדר in unam ligatis.

Finis tituli perobscurus. Ligatura enim eadem unam saltem post נדר litteram complectitur, fortasse י. Dubium vero utrum verbo נדר suffixa sit, an ad nomen voventis pertineat; et nominis ipsius lectio dubia est, נתש (cf. *Acad. des inscr., C. R.*, 1903, p. 32) vel גרש, vel aliud quid. Si priori opinioni assenseris, legendum erit נדרי [גר]ש; si posteriori, נדר י[גר]ש. Interdum dubii hæremus annon, loco נ, בנ legendum sit, ambabus litteris in unam implicatis.

Verte si libet :

Dominæ Tanitidi faciei Baalis et domino
Baali Hammoni, quod vovit [Gara]š.

Notandum est scripturam nostri tituli neopunicam non illam esse quæ extra Carthaginem plerumque usitata est, normæ cuidam et certis litterarum formis subditam, sed eamdem inconstantem et cursivam, qualis sub fine unius aut alterius tituli votivi Carthagine occurrit.

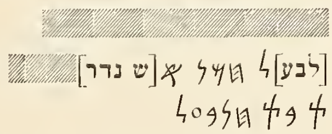

Tituli Tanitei litteris neopunicis inscripti ita rari sunt, ut inter tria millia quæ edidimus, vix duodecim neopunicorum numerus compleatur. Quatuor ex iis habes supra, n^is^ 580, 931, 942 et 949 signatos; reliquos ad finem titulorum Taniteorum dabimus. Notandum est in n^is^ 942 et 949 dedicationem punicis, nomina sola neopunicis elementis scripta. Unde concludas dedicationem et nomen voventis non ab una et eadem manu conscripta, sed cippos votivos in taberna marmorarii sua dedicatione jam instructos venditos esse, nomenque voventis postea additum. Vix enim credimus nomina alia manu recentiori in locum priorum superscripta esse. Verisimilius videtur elementa neopunica in scripturam punicam paulatim irrepsisse. Cf. litteram unam neopunicam in titulo punico, supra, n° 2669.

Nomina et ipsa obscura. Hæc legimus: ססא [ב]ן א[ו]נלפאס. Nomen voventis ססא = *Souso* hic primum occurrit. Cf. biblicum סוסי, *Num.*, XII, 11. Postea restituimus [ב]ן. Reliqui versus lectio admodum certa, interpretatio difficilis. Litterarum enim concursus אונלפאס nomen punicum nullum efficit. Fortasse dividenda, ita ut א[ו]ן (vel א[כ]ן) sit nomen patrium, לפאס autem ethnicum, vel condicio. Confer לפסי, necnon לפקי = *Leptitanus*. In tanta obscuritate, quid si conjecturam fingere audeamus, et לפאס sit cognomen latinum «Lepus», maxime cum sit leporis imago depicta in cippo? Dedicatio solita. Versus 4^i^ finis pessime scriptus est. Etenim, post avi nomen לבי, legis ת certum; deinde signum quod ק male delineatum vel litteras פך inter se ligatas esse ducas; deinde ה certum, post quod מ formæ singularis vel אל; ע certum et in fine ם vel נל. Quid si האלעם perverse pro האלם = *deorum* scriptum sit? Cf. כלב אלם, גלב אלם et similia. Utique condicionem viri sub his latere putamus.

Ledrain tamen duas priores litteras avi nomini subjungit, legitque : לביתק = *Labitoquus;* sed nomen לבי vel לבא pluries occurrit, nunquam subjunctis aliis elementis. Legimus ergo : בעלחנא בן בדעשתרת בן לבי ת[פך] ה[אל]ע[ם] = *Baalhanno, filius Bodaštarti, filii Labæi, . . . [deorum].*

Hæc exstant :

Vers. 1. Dedicatio solita deest. Versus 1^i in initio duæ nec plures litteræ desunt. Legimus [נד]ר = «votum», similitudine versus 2^i coacti, prima quamquam littera ק æquo jure legi possit.

Vers. 1-2. Restitue : אש [נד]ר = «quod vovit». — Ibidem, על בנם על = «super filios super», etc. Cf. in titulo citiensi *C. I. S.*, n° 93, על בן בני על = «super filios filii ejus super» etc., avia votum super nepotes suos solvente, quod pater eorum voverat; nec non על בנם «super filios», *C. I. S.*, n^is 2805 et 178, ubi nullum nomen postpositum est.

Confer quoque *C. I. S.*, 196, על [אב]י = «super patrem meum», atque n° 197, על אדנבעל = «super Adonibaalem». Requiras post hæc filiorum nomina; miraberis autem unius nomen Aderbaalis inscriptum esse. Interdum dubii hæremus utrum non אדנבעל legendum sit, quod in titulo 197 recurrit, et nomen illud dei sit non hominis, vertendumque sit «super Dominum Baalem». Confer tamen infra n^um 3180, ubi eundem vocabulorum ordinem habes, postposito Jehavonis nomine quod virile non divinum nomen fuit. Quid si בנם contractum sit pro בננם = *filium eorum*, scilicet voventis et patris ejus.

Vers. 2-3. Hæc in fine tituli leguntur : קשמ[ע] קלא בערכא. Monstrum illud ק = ך vix dubium, quandoquidem ך non legitur; nec ברכא = בערכא versu 3° multo melius.

Titulum sic ergo restituimus et vertimus :

[נד]ר מגן בן בדמלקרת אש
[נד]ר על בנם על אדרבעל [כ]שמ[ע]
קלא בערכא

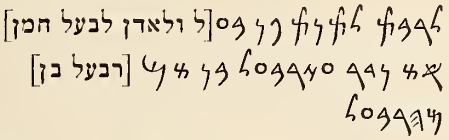

[Vo]tum Magonis, filii Bodmelqarti, quod
[vo]vit super filium [eorum], super Aderbaalem, quia audivit
vocem ejus, benedixit ei.

(Tab. LXVIII.)

Titulos neopunicis elementis scriptos inter tot millia votorum Tanitidi et Baali Hammoni dicatorum fere nullos reperimus; quod quidem mire quadrat cum opinione eorum qui volunt titulos Ta-

niteos ante destructam a Romanis Carthaginem conscriptos fuisse. Scriptura enim neopunica nonnisi sub Romana ditione prævaluit, et ducibus legionibus in locos irrepsit qui ad hoc temporis a punica dominatione aberant.

Unum tamen aut alterum supra jam edidimus, vel mere, vel partim neopunicos, ita ut dedicatio punicis, nomina neopunicis elementis, vel inverse, conscripta sint, scripturæ neopunicæ nascentis indicium (vide supra, n°s 580, 931, 942, 2005, 2020, 2992). His alios octo subjungimus, quibus completur numerus votorum neopunicorum Carthagine repertorum. Unum, apud Delattre n° 617 inscriptum, cui dedicatio nulla præposita est, titulis votivis adscripsimus, quandoquidem forma et totius cippi ornatio eædem sunt quæ titulorum taniteorum. Notabit lector non solam scripturam, sed et dedicationem plerumque in his titulis a solita differre.

Sunt et alii circiter viginti tituli neopunici, in Museo Britannico asservati, quos Davisius ab Honeggero collectos Tunete Londinum reportavit, simul ac cippos Taniteos nonaginta quos supra edidimus (vide t. I, p. 277-278). Horum Vaux memoriam facit in præfatione operis supra laudati. Utrum vero Carthaginiensibus annumerandi sint, valde dubium. Dedicatio enim a solita diversa est, et cipporum forma diversa quoque. Vir doctus Wallis Budge, antiquitatum orientalium in Museo Britannico custos, nos monet se nihil in schedis Davisianis invenisse quod eorum originem spectet. Hos ergo, quoniam de eorum origine nihil certum comperire potuimus, utpote loci incerti ad finem titulorum Carthagine repertorum relegavimus.

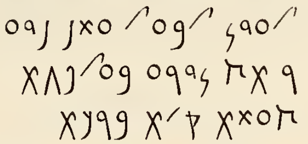

3244

Longpérier, n° 22.

Titulus, scriptura neopunicis proximus, fuit inter cippos Manubenses Parisios ad Expositionem universalem anno 1867 missos (v. supra, t. I, p. 278). Ex illo tempore evanuit, nec quid de eo factum sit comperimus. Etenim, Longpérier Parisiis vidit et edidit; Rodet vero non habet. E nota in armario Corporis inscriptionum Semiticarum asservata appareat Neumannum (vide ibidem, necnon n°s 215 et 308) ectypum Vindobonæ fecisse; sed nec hoc ectypum reperire valuimus.

Edidit Longpérier, *Journ. Asiat.*, 1869, Sér. VI, t. XIII, p. 355 (*Inscriptions de Carthage à l'Exposition universelle de Paris en 1867*, n° 22).

Damus ex apographo a Longpérier facto.

Notandum est titulum hunc non, ut solitum, Tanitidi et Baali Hammoni, sed soli Baali Hammoni dedicatum, quod supra notavimus de titulis aliis Tunete ab Honeggero magnam partem collectis et a Davisio Museo Britannico donatis. Unde dubitatio oritur utrum titulus noster suum hic locum habeat. Titulis nihilominus Taniteis subjunximus, quandoquidem inter titulos Manubenses fuit qui eandem omnes originem habent.

Nota insuper in titulis neopunicis litteras quiescentes haud raro adjunctas esse, et ita quidem ut ע sonum *a*, א autem sonos *o* et *e* plerumque efferant.

Vers. 1-2. Nota עדן = אדן; עמן = חמן; נדער = נדר; נדרע = נדר. Versu 3°, שעמא = שמע. Nomen voventis בעלפגא = *Baalphageus*, nisi corrigendum est בעלפדא, collato, supra, n° 940. De nomine בעלפגא, cf. Lidzbarski, *Handbuch*, p. 434, n° 10 (Tit. Cirtenses). Genealogia nulla.

In fine verba solemnia : שעמא קלא ברכא = *Audivit vocem ejus, benedixit ei.*

Cippi fragmentum, 0^m^,115 altum, 0^m^,18 latum, fuit Golettæ, penes Carolum Cubisol, rerum Gallicarum honoris causa consulem. Vidit anno 1874 in ejus aula et ectypum desumpsit H. de Villefosse. Quid de lapide factum sit nescimus. Damus ex ectypo.

Lectio dubia. Versu 1°, pars inferior litteræ א, post quam בעל valde incertum et א alterum. Versus 2ⁱ initium sic fortasse restituendum : [ש נדר]א = *quo[d vovit]*. — Postea, legis שפט, postpositis litteris ישר vel ישב. Slouschz conjicit שפטישר = *Śafatjaśarus*, nomen virile. Quid si legendum sit, divisis ambobus vocabulis : שפט ישב = *Śafatus, habitans* . . . , nomine urbis vel regionis non jam legendo. Cf. quoque שאר ישוב, Is., VII, 3. — Versus 3ⁱ, in initio litteræ non ita dubiæ, sed de quibus nihil elicere valemus, בנחם vel simile quid. בן חנא = *filius Hannonis* legere amemus, textus non sinit. — Titulus desinit in verba solemnia כשא[מע] קל[א] ברכא = *quia audivit vocem ejus, benedixit ei.*

TABULA TITULORUM VOTIVORUM
TANITIDI ET BAALI HAMMONI DICATORUM.
(180-3251.)

Exit series pæne infinita titulorum Tanitidi et Baali Hammoni dicatorum. Longum et ingratum opus. In tanta enim multitudine titulorum tam arcta similitudine inter se conjunctorum ut dedicatio semper, sæpe nomina sint eadem, difficile fuit nullum omittere; difficilius etiam eundem non bis aut ter repetere et titulos hinc et illinc a diversis auctoribus editos, vel prorsus ineditos per tot peregrinationes persequi et ad suam quemque originem referre.

In colligendis et edendis his titulis auxiliatores habui viros doctos Loisy et Macler; deinde, ambobus deficientibus, Nahumum Slouschz, qui huic operi quam indefessa cura incubuerit mihi cordi erat profiteri.

Nec prætermittendus vir doctissimus Julius Euting, Academiæ nostræ a litteris, qui nos, ea quæ sibi comparaverat ectypa communicando et plagulas nostras sedule revisendo, quanta solet humanitate adjuvit.

Indulgebit benevolus lector, si quædam nostram diligentiam nihilominus fefellerint. Quo vero se facilius in hac titulorum colluvie invenire valeat, damus hic tabulam titulorum taniteorum ita ordinatam ut primo loco numeros titulis impositos ab iis qui longiores titulorum series ante *Corpus inscriptionum semiticarum* editum vel ediderunt vel collegerunt, postea nomina eorum qui vel de paucioribus egerunt vel singulos invenerunt aut ediderunt, ultimo denique loco numeros singulis titulis in nostro *Corpore* inditos habeas. Excepti sunt tituli ab E. de Sainte-Marie reperti, quorum indicem supra ad paginas 262-272 dedimus,

Tituli ab Eutingio editi in opere cui inscribitur *Sammlung der carthagischen Inschriften*, 367 numeris completi sunt. Posteriores inde a numero 368 usque ad n^um^ 440 in suum usum collegit et supradictis numeris inscripsit, sed non edidit.

In numerandis titulis, quoniam longius erat singula nomina auctorum vel collectionum perscribere, quibusdam notis usi sumus. Vetustissimi tituli in museo S. Ludovici asservati litteris S. L. notati sunt. Recentiora collectanea sic notavimus :

S. L. A. = Musée Saint-Louis, 1re série (vel : anc. série).
S. L. B. = Musée Saint-Louis, 55 estampages (loco F) = 2^e^ série (vel : nouv. série).
S. L. C. = Musée Saint-Louis, 3e série.
D. = Delattre (616 estampages).
R. = Reinach.
B. N. = Bibliothèque nationale.
C. I. S. = *Corpus inscriptionum semiticarum.*

Notandum est in prioribus seriebus cipporum votivorum in museo S. Ludovici Carthagine asservatorum, quas litteris S. L. et S. L. A, B et C notavimus, numeros haud paucos deesse. Noli autem credere titulos a nobis omissos fuisse vel amissos. Etenim in mittendis ectypis quæ cum Academia Inscriptionum communicabat, Delattre prius cippos omnes epigraphos et anepigraphos, prout reperiebantur, uno numerorum ordine inscripsit. Inde factum est ut indices nostri iis numeris careant qui cippis anepigraphis inscripti erant.

Neque mireris magis quosdam ex titulis qui a nostro Delattre annis triginta proximis reperti sunt, ab ectypis quæ nobis successim miserat notos, in collectione 616 ectyporum quam nostrum gratia

nuperius faciendam curavit non exstare. Delattre enim ipse nos monet inter tot cippos in crypta musei asservatos, nonnullos temporis injuria et concepto humore ita adulteratos esse ut scriptura non jam dignosci queat. Certum indicium quam necesse erat titulos mox perituros sine mora in lucem proferre et publici juris facere.

Errata et index rerum et verborum ad finem voluminis rejicientur. Plura ceterum jam in præsenti tabula correximus vel explevimus, quæ in componendo opere non perspexeramus. Noli ergo credere nos titulorum cognationem a diversis auctoribus editorum non agnovisse, quin has paginas prius inspexeris.

Philippus Berger, cui post mortem Ernesti Renan (vide supra, p. 118) peculiaris cura hujus partis continuandæ demandata est, hucusque opus perduxerat, cum et ipse vita functus est, die 24ª mensis martii, anno MDCCCCXII, suæ ætatis sexagesimo sexto. Nos autem, accepto prosequendi laboris munere, nihil opportunius duximus quam Carthaginem petere et sedulam Taniteorum titulorum collationem peragere (cf. *Comptes rendus de l'Acad.*, 1919, p. 208). Seriem ineditorum satis amplam collegimus, quorum interpretatio initio tomi tertii tradetur; sed contigit etiam lapsus et quidem, quod dolemus, non paucos, in titulis jam editis reperire : quorum emendationem hic proponemus. Tabulæ autem concordantiarum quas hoc loco adjiciendas esse censuerat Berger sub finem articuli, quo pleniores exhiberentur, rejecimus.
